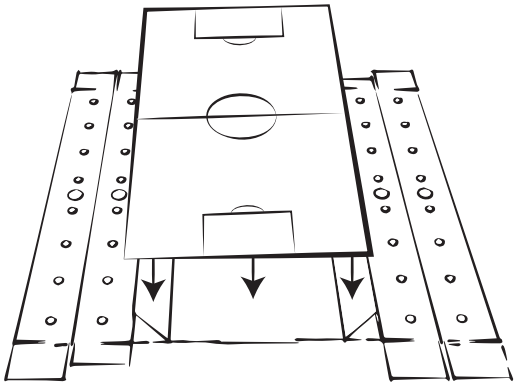
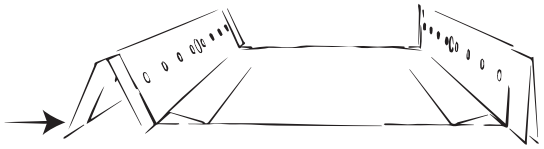
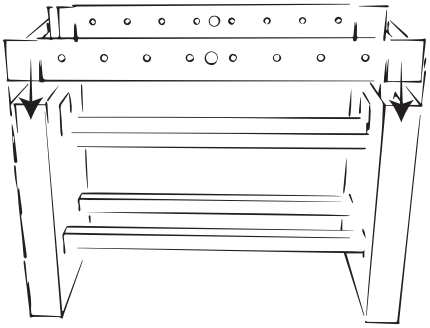
7. Make sure to slide part C all the way down in the slots, as shown.



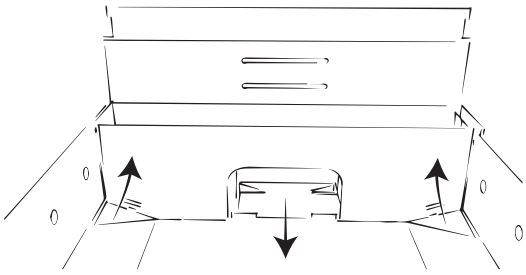
8. (**Optional**) If you ordered a field sticker, this is the best moment to attach it.



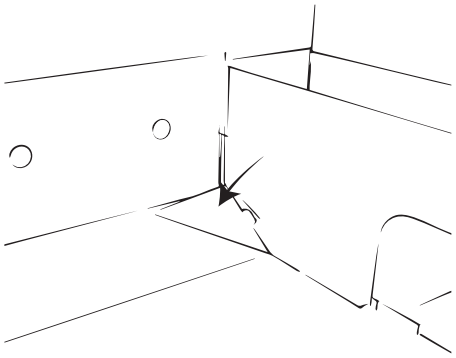
9. Prepare field body D by raising the sides over the fold lines as shown.



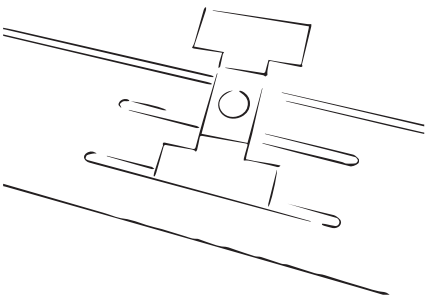
10. Now add part D on the top of legs A over the designated slots. Lower it carefully.



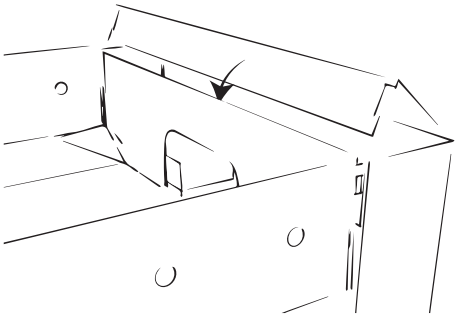
11. Make sure the middle of the field is lower than the sides. This prevents the ball from getting stuck. The corners need to be lifted up.



12. Lower the corners and press them into the cuts with force.

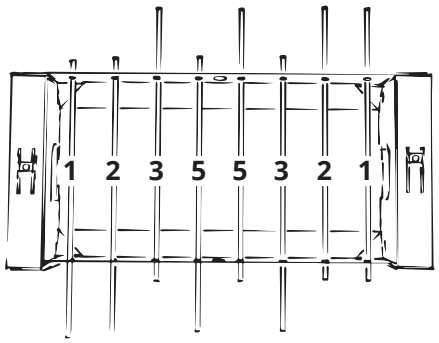


13. To keep the score, slide score counter E into the slots on top of legs A. Squeeze the score counter together behind the slots to secure it.

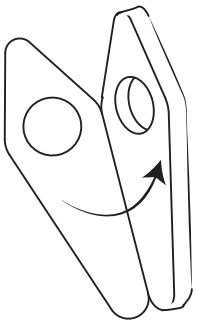


2x

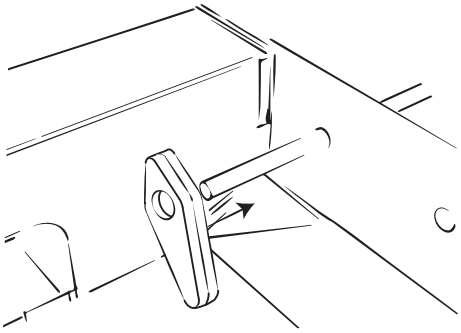
14. Now close the top of the legs A. Pre-fold the fold lines before attaching.



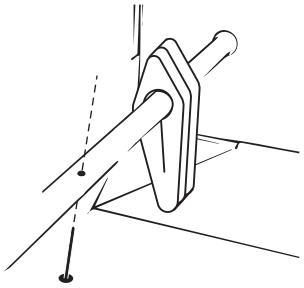
15. Make sure to attach the wooden bars in the right order. The number corresponds with the number of holes.



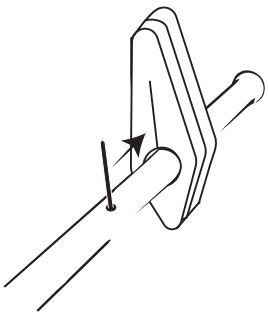
16. Now prepare the player parts G by folding them double over the shallow cutline.



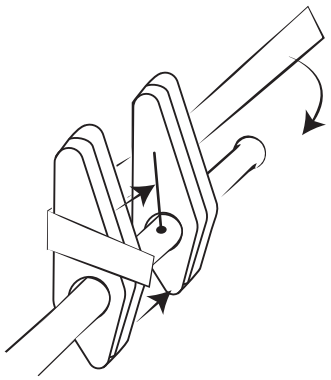
17. Put a wooden bar F through a hole and attach the right amount of player parts.



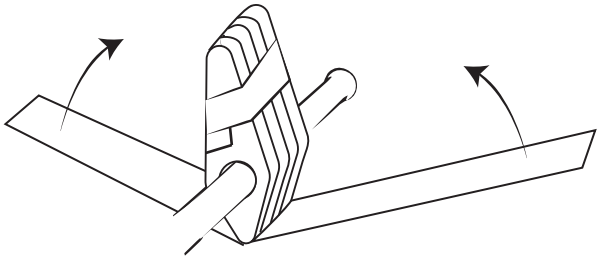
18. To attach the player parts to the bars, put a nail through one of the holes.



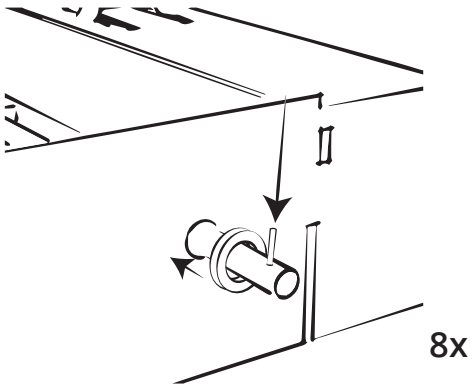
19. Slide the nail into the cuts on the side of the player parts.



20. Finish the player by attaching two player parts together, securing the nail. Use the provided tape to put the pieces together.



21. (**Optional**) If you ordered player stickers, this is the best moment to attach them. Align the stickers from the top.



22. Attach rings I onto the wooden bar and secure with the wooden sticks J.
